

Meet volunteer grants officer **Alain Thomas** (the one in the middle!)

On the left is Snip and on the right of the pic is Frieda.

Alain is now involved in other aspects of GRW but until recently applied for grants for us.

Why did you volunteer for GRW?

I found a lurcher in the street and it went from there....

What attracted you to this role?

It was something I felt I could do and I knew that each successful application would generate a significant amount for GRW.

Any memorable incidents you can tell us about?

Every time a funder replies saying "yes", it's a great feeling. You get a huge sense of achievement
